To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item

on Amazon. It also analyses reviews to verify trustworthiness. Please try again later. Hugh 5.0 out of 5 stars I decided to whack some popcorn in my new microwave for 2 minutes, this would have been an ideal timing in any other microwave. However my this microwave has the heating power of the sun, NASA can stop trying to figure out nuclear fusion and just use my microwave instead. In roughly 45 seconds of microwaving, my popcorn had spontaneously combusted. At first, inebriated me thought that the light had come on to signal my popcorn was ready. It was only when the flames started licking out of the door opening I realised my peril.<http://www.mecaniquekd.ca/upload/calculated-industries-manual.xml>

Long story short, I managed to extinguish the flames before they became a serious issue and have a new found respect for microwaving and the dangers it can present. This is a fantastic microwave, even after the fire the damage was minimal, the whole thing didnt set alight, it was easy to clean and it is still functioning to this day. This is fine. It does its job, which in my case is simply reheating a meal I cooked earlier. I don't want it for cooking a complete meal etc. The only drawback in my mind is the mirror finish door which is a nightmare to keep clean. When it is polished it looks great, but touch the door. Slightly larger print so easy to read. So many times appliance print is quite small. I ordered this basically because of the grey colour. I needed a small, easy to use grey coloured microwave by manufacturer I trusted. This one matches my other Russell Hobbs appliances so fits in well. Some people mentioned rusting but it does tell you to dry up any moisture, I tend to leave door open too for a short while. I do also cover the food too to stop splashes. If you are used to a handle on your microwave the push button opening might be annoying, doesn't bother me. The plate stays firmly in place as with my other Russell Hobbs microwave it kept slipping off the rollers. Seems they have redesigned the plate so thumbs up. The only downside for us is my husband is colour blind, the display numbers are red so he finds it a bit hard to see what the numbers actually are. Overall pleased with our choice. I was happy with it to start with but overall, this sort of lifespan is pretty disappointing. I had over 10 years use from my last microwave, and would have expected more from this. Can't recommend. Admittedly we are only very occasional users of a microwave, with baked beans, jacket potatoes and the defrost function being our main uses. This unit was surprisingly compact and fits perfectly under our cupboard on the kitchen work surface.

The unit appears compact but on inspection still perfectly fits our Tommee Tippee steriliser that we had already purchased for use with the old unit. The digital dial takes some getting used to as you must start at the large numbers and turn down to get to the more common one and two minute timings however the build quality is great and this can be done in no time at all. The only downside to this unit is the admittedly lush mirrored door which becomes marked in the kitchen environment with the slightest touch and we find ourselves constantly wiping this over as a result, but that may only be an issue for those with an obsessive streak like myself and shouldn't deter you from purchasing this, especially at such a competitive price when lined up against the competition. To be fair the measurements I was going off were in reviews as none were given in the product description but still giving three stars only as the design could easily have accommodated a larger plate, the left hand door pillar is 3.5 cm, almost twice as wide as the door itself, limiting the aperture from that which it could be. If the door opening was the same size as the maximum internal dimensions it would be good as the large plate sits on the turntable just fine but needs to be tilted to 20 degrees to get through the opening which of course is unfeasible. Kept it only because we needed one immediately and the smaller dinner plates still fit. Oh, and the extraction is not great, gets a bit steamy, needing to leave the door open a bit after some uses. The actual size of the opening is precisely 27.5 cm wide by 17.4 cm tall.

<http://www.drupalitalia.org/node/77181>

I've used the microwave today and found the ring had been burnt the ring was on fire for at least 1 minute before we noticed I am extremely unhappy with his product as this is a huge health and safety

violation and also a fire hazard there was children present and also a disabled person in the household please contact back ASAP thanks This is protected with plastic film that is fairly difficult to remove but well worth it when the superb gloss surface is revealed. Good power rating at 800W. There is a button which gives a 30sec cook time for every press excellent for cooking porridge. Also comprehensive programming if you can be bothered. Please try again. It comes in a bright white finish, with modern grey accents on the handle and manual control dials. This attractive appliance also has impressive functionality with 800 watts of microwave power, providing quick and convenient cooking in your home. The Russell Hobbs RHM2077 has a 20 litre cavity capacity, which comfortably fits a standard dinner plate and the glass turntable is removable for easy cleaning, and is dishwasher safe. Additional features of the RHM2077 Russell Hobbs microwave include 5 microwave power levels to choose from, so you can ensure all your food is cooked to the perfect temperature.

Scrivener 5.0 out of 5 stars She didn't want an automatic and the controls are simple to operate. It was a good price, looks well in her kitchen and was an all round great buy. I wanted a similar specification oven, i.e. 800W with simple, intuitive, dial controls one can operate without reading and absorbing lengthy instructions. This model ticked all the boxes and I found one at a discount on Amazon Warehouse Deals simply because the Russell Hobbs box it came in was slightly damaged. This isn't the first time I've used Amazon Warehouse Deals and cannot recommend the site highly enough.. My purchase was delivered inside a larger Amazon box so the damaged manufacturer's one was fully protected in any case. The oven is simple to set up and use with a clickstop power control knob and clear markings for both power and timer settings. I'd have preferred actual Wattage figures for the power settings rather than defrost, medium, high and so on but that's just my personal preference. The oven is surprisingly sturdy for an inexpensive item and looks more expensive than it is in my view. I use a microwave most days for defrosting and heating food and this one suits me perfectly. Only time will tell if it's durable and reliable but I'm happy to endorse it with a five star rating for now.

<http://creaturegraphics.com/images/boss-tuner-and-metronome-tu-80-manual.pdf>

Brilliant instructions in large print which was very useful as I am Sight Impaired Would recommend It works very well and is simple to use. Had these been more visible, I would have awarded 5 stars. Has the same features as my old one, just 2 dials, perfect. I was initially concerned that the light was not on whenever the door was open but I watched the online video and could see that this was how it operated so all was well. I would recommend it to anybody who like myself just wants one that cooks your porridge, heats ready meals and jacket potatoes. Wonderful! When my order arrived the packaging was mainly good but not for the glass rotary plate inside the microwave. The glass rotary plate was broken on delivery. The microwave oven now awaits collection to return. I

have had a replacement prior to the faulty one collected. That one was ok. However, now since Jan 2016 the inside bottom of the door has a burnt crack. It is now a danger for leakage or micro waves when cooking. Mother reports it is easy to use and very pleased with the product. Also nice and compact on the worktop. If you want to benefit from this improved service, please opt in. For more information, please see our Cookies Page. The easy to operate pushbutton door gives you easy access to your ingredients, while its sturdy glass turntable ensures your food is evenly heated. A rotary dial timer allows you to preset up to 30 minutes cooking time, while the microwaves 6 power levels including defrost and 8 auto cook options, allow you to cook your favourite dishes at the push of a button. Found this and I am very happy. I would recommend. Basic easy to use dials, small, neat and sleek. Looks wonderful in my kitchen. Just what I wanted. Blends nicely with my other equipment. Easy to keep clean. A real bargain. Thank you.

It is spacious inside, although ive been using it only to cook ready meals. It looks and function as described on the product page. It has a solid build and i bet it will last for a long time, or at least longer than my previous microwave. I would like to point to a few small issues that i have with this microwave. Ive been using it for a few weeks and i cooked several ready meals but there is still a slight unpleasant smell coming from the unit. I do believe that it will disappear after a few more uses because the smell is less and less noticeable after each use. I did follow the instructions from the manual and cooked few bowls with water before first use, but smell is still present. Second point that i would like to address is opening the unit. It has a very handy push button function to open the unit, but the weight of the unit is not enough so i have to hold it with my other hand to keep the unit from sliding away. Apart from these two issues, i couldnt find anything wrong with a microwave. It is very reasonably priced and has all the functions that some other more expensive brands are offering. Highly recommendable. It is spacious inside, although ive been using it only to cook ready meals. It looks and function as described on the product page. Apart from these two issues, i couldnt find anything wrong with a microwave. It is very reasonably priced and has all the functions that some other more expensive brands are offering. Highly recommendable. It is good value for money and it compares well to others in a similar price range. It is very smart and takes little space on the unit. We are very pleased with it. I bought it for my elderly mother who is 90 and although she gets confused and has memory loss she finds it easy to use and clean. It is good value for money and it compares well to others in a similar price range. It is very smart and takes little space on the unit. We are very pleased with it. Simple to operate and seems to work well. Could do with repeat buzzer or bell to indicate cooking time finished. Simple to operate and seems to work well. Could do with repeat buzzer or bell to indicate cooking time finished. Would recommend it to anyone wanting similar basic machine. Great value. Nice and neat design. Bought through Groupon. Delivery quicker than expected. Great value. Nice and neat design. Bought through Groupon. Delivery quicker than expected. Well packaged. Deep fat fryer extremely easy to use and clean. Makes excellent chips! Heats food up quickly so pretty powerful. Ive had lots of microwaves over the years and this is my favourite by far. Excellent value for money. Heats food up quickly so pretty powerful. Ive had lots of microwaves over the years and

this is my favourite by far. Excellent value for money Only criticism is that the power settings in the instruction manual do not relate to the decals on the machine. Only criticism is that the power settings in the instruction manual do not relate to the decals on the machine.

Login here This means that for the time being a few features may be missing, but we're working hard to get it all up and running as soon as we can. We do not store credit card details nor have access to your credit card information. Dispensing with complicated settings, the 20 litre capacity microwave allows you to manually choose from 6 settings, simply pop your meal inside and let the microwave do the hard work for you! At Swan Products Ltd we ship thousands of items per week and a very small amount will from time to time be faulty. We understand that this is an inconvenience, and can be upsetting, so we have a no quibble returns, refund or replacement policy to ensure that our customers are properly serviced. How to return a faulty item. Items occasionally go faulty and you may have to return these items to us for a full, no quibble refund. It is important that you notify us immediately and follow the returns procedure in order to receive a refund. When you wish to return a faulty or damaged item to the Swan Products Ltd, you will firstly need to let us know what the problem is with the item. Detailed reason for return or detail of the fault. Our order number. A contact name with phone number and email details. Please allow 3 working days for us to process a return. We will organise a suitable date and time for our couriers to collect the item. Once a request has been received, we check all items. If we encounter any problems with your request, we will query these with you. Any refunds will be applied to the card you used to make the payment on our store. If the customer chooses to have the item unpacked and it is damaged the customer must reject the delivery and contact their retailer to organise an exchange. If the customer does not have the item unpacked by the delivery company and reports the appliance as damaged after, the customer must contact our service company details below. The service agents will instruct an engineer to assess the damage.

In all other eventualities, it's quicker to send an engineer with a spare part. Swan will authorise an exchange providing the fault is beyond economical repair and the service company have generated a fault reference number to reflect this. If the repair takes an unreasonable amount over 28 days for cosmetic faults and over 7 days for critical faults of time Swan will consider authorising an exchange. This will be decided on individual circumstances and the nature of the fault. NESN require 710 working days for parts to arrive from the day they are ordered. Major domestic appliances are excluded from 30 day money back guarantee. However, if an appliance is deemed as faulty and beyond repair within 14 days of taking delivery of the item, providing this has been confirmed by our service agents, Swan will authorise a return for your customer to receive a full refund. Swan will authorise an exchange for an appliance that is beyond repair alternatively the retailer can offer a partial refund to keep the appliance in the current condition. The amount offered must be decided on individual cases, agreed with Swan and is dependent on the severity of the fault. Service Company NESN 0345 610 4118. Warranty. The Swan Products Ltd provides a one or two year warranty depending upon the type of product. When you initially request a refund, we will check the date when the item was purchased using the order number you provide to us. If it exceeds the warranty period, we are unable to effect the returns procedure. Specific Manufacturer Requirements. Some manufacturers have specific requirements. So we may ask for further information such as. Serial Number. Fault Details. Unauthorised returns. Any unauthorised goods returned to us will be destroyed on receipt. Damages. If you receive any damaged items on your delivery, please state the full extent of the damage on the driver's delivery note when signing for the goods. Failure to do this may result in us refusing to issue a credit.

Shortages. Important information. Please do. Make sure all items returned are complete; any incomplete items will not be credited and will be classed as unauthorised. Answer all queries as soon as possible. Unwanted Items Refund Policy. If within 7 working days of purchase, you decide that

you do not want an item please email or write to us. You do not have to give any reason for cancellation. However, a brief explanation will help us to improve the service we offer to customers in future. If you cancel you must return the goods to us at your own expense. You are responsible for the risk of loss or damage when you return the goods, so you should take out adequate postal insurance to cover their value. If you fail to return the goods, we will collect them, and will charge you the direct cost of collection. If you fail to take reasonable care of the goods before they are returned to us, and this results in damage or deterioration, we will charge you for the reduction in value.
